"TT was easy, detailed, and cost effect. The wife and I used HR Block separately for years, what a waste of money. This year we compared the on-line TT with HR Block, and TT was more detailed, here and now answers with the same results.

Thx TT"

FAQ

Click here for additional information on how to import tax information into TurboTax.. I've been using Turbo Tax on the Mac for the past 10 years and never once had a problem.. Just copy the folder to your application folder as the disk instructs you to do.

Remove the disk and open the application from the hard drive If that doesn't work, then you probably got a bad software disk.. Note: TurboTax Online no longer supports Quicken import To import tax information from Quicken, use the TurboTax Desktop software.
